| Power | Watt | 1150 |
| Vacuum rate | mm.H ₂ O | 2.500 |
| Air flow | M ³ /h | 180 |
| Dry Filter type | | Polyester |
| Capacity | Lt. | 50 |
| Floating device | | Included |
| Suction inlet | Ø | 60 |
| Noise level | dB(A) | 72 |
| Dimensions | cm. | 52 x 40 |
| Height | cm. | 90 |
| Weight | Kg. | 20 |

FEATURES

- The vacuum cleaners **MISTRAL 501** is powered by a by-pass motor, carbon brush type, providing a **rapid cooling of the motor in case of overheating**. The motors are installed inside a sturdy plastic case; special noise buffers reduce the noise within the safety standards of work. The suction inlet can be used with hoses ranging from 50 to 32 mm.
- The filter is a **polyester star filter**, providing a filtration of **3 micron efficiency (cat. L)**,
- The wet kit is made up by a **floating device**, protecting the motor against damage from liquids, foam and solid objects.
- A **50 lt. container** enables to dispose easily of the sucked up liquid, which can be discharged by a **flexible discharge hose**.
- The frame is made of epoxidic painted steel and mounted on four wheels, two of them rotating and one with brake.
- A complete wet & dry accessory kit (Ø38 mm.) is included

OPTIONAL: stainless steel AISI304 construction
